About KnectIQ

/kəˈnɛkt aɪˈkyu/

KnectIQ

Overview

KnectIQ is on a mission
to ensure
data operational agility
through
unparalleled security
for
military
and
government partners

① The Company:

- Privately owned startup
- **$4M revenue** in 2023
- Disruptive, advanced cybersecurity technology provider

② The Approach:

- Uniquely deliver safe data operationalization, data agility, and interoperability via a patented, modern security solution that extends beyond conventional security framework boundaries

③ The Technology: SelectiveTRUST™

- Provides data-centric agility for interoperability advantages at the speed of relevance
- Removes barriers/burdens for warfighters to ease secure communications
- Maximizes operational capacity with real-time security and agility
- Allows safe data operations to fortify mission success
